Number 4

NEWS NOTES

Miss June Anderson has resigned from the Bank of Montreal and will be leaving soon for Salt Lake City within the next two weeks. Mrs. Dorothy Neilson is relieving at the bank.

Thomas Forsythe, ofetime resident of Raymond is a patient in the hospital suffering from pneumonia.

Friends will be glad to know that Ted Meeks has returned to his home after spending six weeks in the hospital with a broken leg.

Born to Mr. and Mrs. Bert Powellson, a son.

Mr. and Mrs. Stan Greep had as guests this week, her cousins, Mr. and Mrs. Larry Mendik of Black Eagle, Mon.

Delbert, eldest son of Mr. and Mrs. Joe Thompson, has returned home from overseas.

Miladi Club met Thursday May 16 at the home of Mrs. H. Dean Rolfsen with 15 members present. Mrs. Virginia Wilde reviewed the book, The Pear Tree and a dairy lunch was served by the hostess.

Mr. and Mrs. Wes McMullin have moved into the Nolan McMullin home which they have purchased. They have sold their residence to Mr. Pierson, engineer at the Sugar Factory, who expects to move his family here from High River.

Miss Dorothy Strong left Wednesday for Toole Utah, to spend two weeks with her sister Mrs. Leona Anderson.

Miss Jorcan Jamison arrived home Wednesday from Edmonton where she has been a guest of her sister.

A Salt Lake City newspaper tells of the accidental death of Lauron M. Neel, former Raymond resident. Mr. Neel leaves a wife and five children living in Salt Lake. A sister, Mrs. Amy Spackman of Stirling has left for Salt Lake.

A missionary farewell will be held Sunday evening in the Second Ward in honour of Miss June Anderson who is leaving soon to fill a mission in Eastern Canada.

Twin girls were born to Mr. and Mrs. Pat Jamison last Sunday at the Municipal hospital. One of the babies died and a grave side service was held Tuesday in the local cemetery. Mrs. Jamison is one of the English brides who arrived here two weeks ago.

Mose Fromm took a group of deacons to the Temple Tuesday.

Mrs. J. H. Walkers Sunday School class of thirty seven boys and girls motored to Cardston Tuesday. While there they were taken on a tour of the Temple end grounds by Pres. E.J. Wood, after which they enjoyed a picnic in the Cardston Park.

Miss Velda Nalder is a visitor from Picture Butte.

The Misses Lois Fairbanks and Barbara Nalder of Calgary were here last Monday for the funeral of Mrs. Elbert.

Mrs. Ada Ried of Edmonton is a guest of her mother Mrs. M. Jamison.

Mrs. Leah Jones entertained the Neighborhood Club Tuesday evening at her home. A handkerchief shower was given to Miss June Anderson, special guest, and the hostess served a lovely lunch.

Wilma Jensen, daughter of Mr. and Mrs. Art Jensen is a patient in the Municipal hospital following an operation for appendicitis.

Gordon Fleher returned home from the hospital Monday, where he was taking treatments.

MILFORD ALLRED PASSES AWAY

His many friends will be sorry to learn that Milford Park Allred died at 11 p.m., Tuesday, May 21st, at the local hospital, after a prolonged heart ailment.

Miff and Marlin, twins, were born at Pleasanton, New Mexico, October 30, 1882. He moved to Arizona, later coming to Canada April 1903. Here at Raymond he farmed for a time, and later, for 15 years, he was night foreman for Ellison Milling Company at Megrath and Lethbridge. After which he did extensive dry-farming, in partnership with Marlin, at Raymond and Spring Coulee, returning to Raymond in 1929 to operate an irrigated farm. Also engaging in stock raising and working in the factory during campaigns.

Miff was well and favorably known for his integrity in his work. He was keenly interested in sports, being an ardent fan for the Union Jacks. A welfare worker in the Elders Quorum he was well known.

Left to mourn are his wife, June Nilsson Allred, whom he married on June 24 1918, also his children Carl and Erma, and two grand children. Of his immediate family, Marlin of Raymond, Mrs. Mable Johnson of Bernwell, Mrs. B.F. Johnson of Calgary and Mrs. Bert Grand, of New West Minister, B.C. remain to mourn his passing.

Funeral services will be held Saturday, in the Second Ward Chapel, at 2:30 p.m.

Snaps and Scraps

Man's greatest danger is from his fellow human beings.

New books this week at the Library

"The Years Ahead"—Report of the Canadian Y.M.C.A.

"The Oppenheim Secret Service Omnibus"—E. Phillips Oppenheim

"The Romance of Mining"—T.A. Richard

"Jack and Jill"—Louise M. Alcott

"Black Mischief"—Evelyn Waugh

"Must We Fight Russia"—Ely Culbertson

Simple, But.

There's a simple little epitaph in France so far away.

It reads: "For your tomorrow They have given their today."

MARY WEEKS—Canadian born writer of folklore and stories of Canadian life was born in Nova Scotia, but has lived the greater part of her life in the west. Since 1914 she has lived in Regina, Saskatchewan. Miss Weeks graduated from the Boston City Hospital as a nurse. Later she was superintendent of the Boston Psychopathic hospital. Mary Weeks spends most of her time writing for Canadian Newspapers but between times she has taken time to write "Round the Councill Fires" and "The Last Buffalo Hunter".

Brown and white colored eggs are of equal value.

Versatile First Aid Stretcher-Cot

An Invention of Arthur Atwood of Raymond.

Arthur Atwood's new invention, namely a First Aid Stretcher has been rapidly becoming popular not only in his home town but throughout the district. A hand made model of the stretcher has been used in several emergency cases in Raymond, and the inventor himself has been called repeatedly to demonstrate his invention before public gatherings and various institutions.

Thus on April 25th he had the opportunity to demonstrate the model in Lethbridge at the Local Centre of the St. Johns Ambulance Association at the meeting that was sponsored jointly by the Provincial Commandery of the Association and Safety Supervisor of the Compensation Board. The representatives of these Organizations as well as a distinguished first aider, Superintendent of the Mine Rescue Station of the City commended highly the invention. In their unanimous opinion it is an invaluable appliance in cases of serious accidents, where use of a stretcher is urgent. It is readily adaptable to the various conditions and positions of the injured, besides, in no time, it may be converted into an adjustable cot.

On May 18 Mr. Atwood was called to demonstrate the stretcher in a series of applications in Cardston, namely in the presence of Doctors Key, Dolery, Tompkins and a number of nurses in the Cardston Hospital and in the local Clinic. The patients were picked up on the stretcher, carried and unloaded on the bed with ease and speed and efficiency, practically with out direct manual handling or any disturbance to the patients themselves. Conversion of the stretcher into an adjustable cot was also shown. All the observers were enthusiastic in their comments on the appliance and predicted a great future for the stretcher.

Only recently the inventor received an invitation to demonstrate his invention in British Columbia before the Coal Miners Convention. He is planning to attend the gathering and let the miners see the stretcher in practical use.

Dr. J.H. Walker of Raymond, a first Medical Officer before whom the model was initially demonstrated appreciates greatly special features of the stretcher. It is on his call that the appliance has been used locally in several cases of the seriously ill or seriously injured patients requiring hospital treatment.

SPRING CLEANING

Eleanor Hammond
Spring is busy cleaning house.
Big cloud-sponges wash the sky.
All the fields have brand new carpets.
Newly washed the gardens lie.
New green curtains drape the willow.
White lace frills the cherry tree,
Crocus has a brand new dress on.
Ready for her guests, the bees.
Every field and hill and garden
Spring will clean now without fail.
But I wish she wouldn't splash so—
Dripping raindrops from her pall!

The truly blind we may excuse not those with eyes they do not use.

ing handled on the new appliance.

On May 19th Mr. Atwood was called again to bring from the local Hospital, Ted Meeks who has been confined to the hospital for some time, suffering from a serious femoral fracture. Arthur with some assistance at the other end of the stretcher picked the patient on the stretcher direct from the hospital bed, transported and brought him safely home where the patient was unloaded on the bed without direct manual handling, and without causing any inconvenience or pain.

Much credit is due to Mr. Atwood for his ingenious device which, as time goes by, will find wide application in Hospitals, organized first aid stations in industry, lumber camps, mines, etc. The inventor applied for patent both in Canada and the U.S.A. His hometown people and particularly his fellow first-aiders are proud of Arthur's achievement and wish him every success with his versatile First Aid Appliance in his effort to make it available to the public on a commercial basis. After all what matter more than a better chance of recovery of the seriously injured through the employment of better first aid equipment.

Contributed by one of many who knows well the inventor and his wonderful stretcher.

Wedding Bell Spackman - Rasmussen

A lovely wedding was solemnized May 16 in the Alberta Temple when President J. Wood united Robert Lewis Spackman, eldest son of Mr. and Mrs. Elmer Spackman and Debra Rasmussen, second daughter of Mr. and Mrs. Henry Rasmussen, of Rosemary, formerly of Raymond.

They were attended by Miss Alice Faye Rasmussen, cousin of the bride, and Mr. Ray Rasmussen, brother of the bride.

The bride was lovely in white satin and lace with a floor length veil. She carried a bouquet of red roses.

Mr. and Mrs. Spackman are making their home in Rosemary where the groom will take up farming. Mr. Spackman spent three years overseas in the service.

The bride formerly lived in Vancouver.

Top Honors In Musical Festival

Raymond carried off many honors in the Musical Festival being held in Lethbridge this week.

In Division 1—Grades 1-2-3

Boys Solo—Tommy Wood 1st, 84

Tucker Saka 2nd, 83.

Girls Solo—Jolayne Rowland 1st, 83.

Nariko Ikuto 2nd, 82.

Division 2—Grades 4-5-6

Kay Salmon 1st, 83; Larry Dahl 2nd, 81.

Girls Solo—Frances Atterton 1st, 86; Karma Woolley 2nd, 85.

Boys Solo, Division 3, Grade 7—

Edward Kubota 85, Laurence Barker 84.

Girls Solo—Jean Holmes 86, Joan Holmes 85.

Rhythmic Ensemble 84.

Public School Duet—Grace Peterson and Kenneth Hickson 87.

Public School Chorus, 2 numbers, 87 each.

Much credit is due Mrs. Velma N. Redd and other teachers for the success of the contestants here.

Appreciation was expressed by many Sunday after hearing many of the boys and girls who won out at the festival.

There will be more results of the other contestants next week.

A shower was held Wednesday May 22 in the Second Ward Recreation hall for Mrs. Robert Spackman.

A program included a piano duet by Maybelle Anderson and Emma Dahl.

Readings by Mrs. Lucy Stevens, piano duet by Joanne Poulson, and Rita Erickson.

Solo—Evelyn Melchin.

Local Lions Trade Ties For Red Rooster

A complete surprise to the local Lions Club, at their bi-monthly meeting last Monday night was the appearance of the Magrath Lions Club, who upon their arrival took complete charge. Lion President Chas Matkin of Magrath took the chair from Lion President Karl Wilde and a hilarious evening was forthcoming.

The visiting club brought with them a red rooster which they presented to Lion Karl Wilde for the Raymond club, and to make sure that Karl didn't keep the rooster for himself they proposed to raffle the rooster at ten cents a chance. Everyone donated a dime and signed their name on a paper. When the paper was turned over and read it appeared the Lions had signed their willingness to donate their ties to the Magrath Club. The ensuing scramble of the Raymond Lions to ditch their ties and the Magrath Tail Twisters to prevent anyone getting away with it was a sight indeed.

Protesting that the Deputy District Governor and the Zone Chairman didn't move around enough the tail twisters piled Lions Paul Moreland and Mutt Ralph with a stiff dose of Castor Oil. (At least the bottle was marked Castor Oil.)

Lion Tamer Grant Woolley of Magrath led the community singing, and a quartet from Magrath sang two songs. Guest speaker of the evening was George Spencer from Magrath who gave some interesting experiences while overseas.

The activities of the Magrath Tail Twisters kept everyone on their toes and in the best of humor.

Business of the meeting was the nomination of a new slate of officers for the coming year in the Raymond club.

SINGING TOURIST

Twenty year old ROY ROBERTS of Kitchener Ontario is a singing discovery of Mart Kenney, who signed him up with his Western Gentlemen early this year after hearing him sing one song. Roy is now touring Canada with the Kenney Band in the "Electric Hour", which was broadcast last Monday, May 20, over the CBC Dominion network from Windsor at 7:00 p.m.

Mrs. Margaret Elbert entertained the Wednesday Nite Club May 22 at her home. The ladies enjoyed an evening of sewing and lunch was served.

The Junior Rangers Club surprised Gordon Fisher with a birthday party Wednesday evening, celebrating his fourteenth birthday.

Mrs. Spackman received many lovely and useful gifts, and she was assisted in opening her gifts by her sister-in-law, Nora Spackman and her cousin Alice Faye Rasmussen of Magrath.

Out of town guests included Mrs. A. Erickson, Anna Spackman, Anabelle Spackman and Mary Zaugg, all of Stirling.

At Least One Garment --

At least one garment per person should be the minimum contribution in the forthcoming National Clothing Collection under the auspices of the Canadian Allied Relief for distressed peoples of Europe and Asia. In the opinion of D.A. Hanson, President of the Montreal Board of Trade.

In a letter to William Massey Birks National Chairman of the Campaign, Mr. Hanson says: "No Canadian could resist being directly interested in the National Clothing Collection dreds of thousands of people who are Campaign for the benefit of the so desperately in need of clothing of all kinds. At least one garment per person should be the minimum contribution."

"You may be sure that the Montreal Board of Trade will earnestly co-operate in every way possible with those who are in charge of this humanitarian effort."

The Canadian Red Cross Society is also backing the effort which will be made from June 17 to June 29, to collect several million pounds of serviceable used clothing. Mrs. C.F. McEachern, Chairman of the National Women's War Work Committee of the Society has sent a personal letter to all the Divisional Chairmen of the committee across Canada asking the workers to give the campaign the same co-operation and assistance as last year.

Mrs. McEachern, in her letter says: "We again commend this excellent effort to whatever support you are able to give it. We feel that it marks the whole hearted support of the Canadian Red Cross Society."

WELLING NEWS

by Mrs. E. K. Bullock

Mr. and Mrs. J. H. Wilde and four older children visited in California during the Easter holidays. They made the trip by plane and report a very enjoyable time.

A welcome home party was held on Friday, May 10th for Miss Glenna Foote. She recently returned from a mission to Eastern Canada. Guy Foote is on a mission in New Zealand.

Ray Bullock met with a very painful accident Tuesday when the saw slipped cutting his thumb severely.

Construction of a large reservoir for the Welling L.D.S. Church is starting soon. On completion all modern facilities will be installed. George and Alvin Bullock will also draw from the reservoir.

The Misses Doris and Ruth Weinheimer left Saturday for Banff where they have employment for the summer months. In the fall they will resume their studies in Edmonton.

Mrs. Kenneth Wilde has returned from the hospital at Lethbridge. She and baby boy are feeling fine.

Mr. and Mrs. Vern Petersoo are moving soon to the farm recently purchased from Derral Cox. Mr. Cox and family have moved to Brooks.

Mr. and Mrs. Ern Bullock and son Lee were entertained at dinner at the home of Mr. and Mrs. Glenn Bullock of Raymond on Conference Sunday.

The Welling Relief Society held a social on April 30th. Twenty five ladies were present including Gibb and Mrs. Robinson from Magrath. Mrs. Robinson gave a very interesting demonstration on rug making after which a delicious lunch was served.

A large number of acres of beets were planted on the farm recently heavy frost a short time ago.

WORLD HAPPENINGS
BRIEFLY TOLD

The Duchess of Richmond, Canadian Pacific Steamships liner, has been returned to its owners by the British ministry of transport.

An electronic soap dispenser which automatically squirts liquid soap when the user's hands break a beam of light, has been developed.

Health Minister Aneurin Bevin said recently that the government is going to put German prisoners "without limit" to work in the brickfields.

The Pacific's disastrous tidal wave of April 1, killed 173 persons in the Hawaiian Islands, Clarence F. Rowland, Red Cross director, said.

Thirty-two Royal Navy mine-sweepers are being transferred to the Italian navy to finish the job of sweeping mines laid in the Mediterranean during the war.

Mines at Warsaw, England, are to build an altar of coal, heavy from their own pit, in the local parish church. Around it will be six panels depicting life below ground.

Almost 850,000 baby chicks, valued at \$115,218, were exported from Canada during the calendar year 1945. With the exception of 1,268 chicks, all were shipped to the United States.

When the King and Queen and the two Princesses go to South Africa next year they will travel in Britain's new battleship "Vanguard," launched by Princess Elizabeth in December, 1944.

Soviet civil aviation development during the next five years aims at increasing traffic to 17 times the pre-war level by 1950, it was announced at a scientific and technical conference.

Beautify Canada

A Wide-Reach Campaign Is Now Under Way

Canada's greatest clean-up, paint-up, plant-up campaign is well under way with plenty of indications that 1946 will chalk up the most successful beautification drive in Canadian history to date.

"Beautify Canada by Beautifying your Community" is the slogan of the Junior Chamber of Commerce and Boards of Trade who are sponsoring the campaign, and some 80 communities from coast to coast have adopted the watchword to spark individual drives.

Cities, towns and villages from Halifax to Vancouver, ranging in size from Montreal to Alix, Alta. (pop. 300) have joined in Canada's first national beautification campaign. Canada as a whole cannot fail to benefit from the continent-wide campaign, but those communities which will benefit most are those whose residents are putting most into the drive.

The purpose of the campaign is to make as many Canadian communities as possible cleaner, healthier, more attractive, efficient and prosperous. With this is the desire to prepare the cities, towns and municipalities of Canada for a bumper tourist year in the realization that the tourist trade is one of Canada's biggest businesses. As outlined by the Canadian Junior Chamber of Commerce, the organization supplying over-all direction to the campaign, here are some of the advantages to be derived from civic beautification.

Community spirit is developed as all classes of people learn how to work better together at a common project.

Better citizenship results from increased respect for clean and attractive property and individual participation in better community house-keeping.

Fire losses are reduced when accumulation of wastes and rubbish are removed, thereby eliminating the causes of many destructive fires.

Vacant grounds are improved. Breeding places for disease are routed up and destroyed. War is declared on mosquitoes, flies, rats, roaches and other pests.

Safety is promoted when treacherous stairs, porches, sidewalks, and railings are repaired and painted for better visibility at night.

Morale is improved in factories and office buildings which have been cleaned up and painted. The same applies to the individual morale when homes are beautified inside and out.

The community as a whole becomes a more desirable place in which to live; and a more attractive place for tourists to visit.

Business is stimulated. A clean up campaign starts repairs, modernization of property and building activity.

WESTERN LUMBER FOR EAST

Special inducement has been offered to saw mills in Manitoba, Saskatchewan, Alberta and southern British Columbia to ship some types of lumber to Ontario, Reconstruction Minister Howe said in the Commons. Mr. Howe said the action applied to "two by eight" and wider rough dimensions lumber not produced in any quantity in Ontario.

Customers are usually willing to pay more for eggs that are always clean, or uniform size and color, and strong in the shell. Poultrymen should remember this.

WINNIPEG MARKSMEN BAGGING PIGEONS—The bald pate of a Winnipeg bank manager was hit when a pigeon dropped an egg with a "near miss" on the nest. The banker fired his caretaker, the caretaker appealed to police, Sgt. C. N. Tangsted shot down the "bomber", and the caretaker got his job back. Now Winnipeg marksmen are bagging birds at the rate of 50 a day.

INJURED IN HAYRIDE, MAY NOT WALK AGAIN—Theresa Grondin, 16-year-old schoolgirl was one of some 40 young people on a hay-ride party in Windsor, Ont., which ended with 11 in the hospital following a collision between an automobile and wagon bearing the hay-ride party. Doctors had little hope that she will ever walk again because of spinal injuries which may bring permanent paralysis to her lower limbs.

Designing Cartoons

Much Work Necessary In Preparing Animated Films

Cartoons have long been familiar to all movie-goers, but few of us realize the immense amount of work involved in making them. It is a slow process, demanding numerous careful drawings to create a smooth animated effect.

On a recent trip to the National Film Board, we dropped in to see the animation department in operation. They were at work on a new cartoon, the script of which called for a man running down a street. The background of houses and shops along the street was painted on a large card. A series of drawings of the man in different stages of running were prepared on a set of celluloid cards.

These celluloids were placed over the street background card, and the background could, of course, be seen through the celluloid. The animation camera photographed a film frame of the man in one position, the celluloid card was changed to show the man in the next position, another film frame was photographed, and so on, until the man had run down the street. While the celluloids were being changed, the large background was moved very slightly in the opposite direction to the one in which the man was running, to help create the illusion of movement.

The same painstaking effort goes into every action a figure or an object makes in a cartoon, but despite the hours of work involved, artists find their work fascinating.

Talk English

Irish Tongue Appears To Be On The Wane In Eire

The sad news for the lovers of the native Irish tongue is that its use is dwindling despite all efforts of the Government to stimulate it.

The Dail (Ireland's Parliament) heard Premier de Valera admit as much. He told members influences against the language—radio, newspapers and movies—were strong, but must be faced.

Education Minister Derrig said that people in Irish-speaking areas were conscious of the fact they were living in poor and barren districts and might have to leave them for economic reasons. Therefore they found it essential to know English.

New Vessel Launched

Was Named Athabaskan After Destroyer Lost In English Channel

Canada's newest warship, the tribal class destroyer Athabaskan, was launched, bearing the name of another Canadian destroyer lost in a sea battle in the English Channel.

The new fighting ship was sent down the ways with the blessing of Mrs. J. H. Stubbs, widow of Lt. Cmdr. John Hamilton Stubbs, who lost his life when his ship, the old Athabaskan, was split by a German torpedo and sunk two years ago.

Mrs. Stubbs went to Halifax from her home in Victoria to take the leading part in the launching of the ship named to commemorate the vessel in which her husband fought.

Will Be Milling Ore

The Giant Yellowknife Is Now Near Production Stage

Giant Yellowknife, N.W.T., is now financed to bring it into production the annual report of Bear Exploration and Radium Limited, announced. Giant Yellowknife is one of the company's main assets. Present plans call for Giant Yellowknife to start milling ore by the end of 1947, with initial capacity 500 tons daily. The mill is being laid out.

The report refers to plans of the Dominion Government to construct a 25,000 horsepower development in the Yellowknife area and plan of the Alberta Government to build a road into the field.

A man weighs about 12 ounces less at either the North or South Pole than he does at the equator.

TONGUE IMPORTANT DISEASE INDICATOR

Years ago a doctor's observation and study of a patient's tongue were an important part of nearly every physical examination.

"Let me see your tongue," the old-time physician would ask his patient, and from its appearance and color he could usually make an accurate diagnosis. He was quick to recognize the strawberry tongue of scarlet fever, the shriveled tongue of dysentery and the brown, dry tongue of typhoid fever.

Newer diagnostic methods and increased laboratory facilities have supplanted to some extent such detailed observation," says Dr. Russell A. Sage, of Indianapolis, but he adds that despite all the scientific advancements the modern physician can still rely on the tongue as an important indicator of many diseases.

Writing in the Archives of Otolaryngology, published by the American Medical Association, Dr. Sage tells how nature has adapted the tongues of animals to meet individual requirements. In the muskellunge, for example, toothlike appendages are present which enable the big fish to hold his prey while he turns and swallows it, and in the cow the "nonskid" surface of the tongue enables the animal to grasp its grassy food better.

In man, sores of the tongue are commonly found on the surface or covering tissue which transmits sensations to the brain. Changes of temperature, touch sensations and the ability to perceive the four basic flavours—salt, sour, bitter and sweet—are the primary functions of the tongue-covering membrane.

Generalized nervous disorders may be shown by certain misbehaviours of the tongue," Dr. Sage says, citing as examples the tremors seen in hyperthyroidism, the clumsiness of the tongue in decreased thyroid function and its "purposeless movements" in chorea or St. Vitus's dance.

In anemia, where the number of red blood cells or the amount of hemoglobin in the blood is reduced below normal, the tongue becomes pale.

A slick tongue, Dr. Sage says, usually means vitamin deficiency.

A coated tongue often has little to do with the state of a person's digestive system. It may be a local condition due to lack of oral cleanliness," the author writes.

Edema or swelling of the tongue is due to infection or allergy. It often occurs in persons who have eaten fish, walnuts or chocolate, and it may result from bites and stings of insects or other injury.

An inflamed tongue might be caused by irritation from a jagged tooth or by an infection of the taste buds, while a burning tongue is usually associated with various forms of anemia and vitamin deficiencies. A poor fitting denture or excessive smoking may also cause a burning sensation of the tongue.

Vitamin deficiencies, due to lack of riboflavin and to lack of nicotinic acid (the cause of pellagra), bring on an inflammation of the tongue.

A "geographic tongue", in which the surface is marked by long, deep furrows instead of being smooth, is a common condition. Grayish thickened patches on the surface are noticed. The condition is "relatively harmless, but causes a great deal of worry in the mind of the patient," Dr. Sage says.

Ulcers of the tongue occur from infection and chronic irritation, and one of the most distressing tongue afflictions is the common canker sore. There are several types, and it is believed that indigestion, infected tonsils, adenoids and uncleanness of the mouth and teeth are contributing causes to this unpleasant and painful mouth condition.

THIS PROGRESS

The Vancouver Sun says in this enlightened age, most people have little use for common or garden fire. Electricity is more scientific and soon we shall do our cooking with disgruntled atoms. Sulphur is gone both from our matches and our spring tonics. Time marches on.

Nearly half of the world's land area is largely uninhabitable because of deserts, mountains, ice or tundra.

ONE OF VERY FEW—Vera Clegg of Yellowknife, in Canada's far-flung Northwest Territories, takes home a few dollars' worth of groceries, for prices on food in the booming little goldrush town include \$1.50 for a dozen eggs, 25 cents for a loaf of bread. Vera is one of the few white women who have ventured into this gold camp, 600 miles north of the nearest city, Edmonton.

The ancients believed that diamonds were formed by lightning.

Will Be Missed

Lord Halifax Endured Himself To People Of United States

Retiring after five strenuous years in wartime Washington, Lord Halifax can look back upon a diplomatic mission as notable as that of Rt. Hon. James Bryce, of whom it was said that he knew the American constitution better than any American. Lord Halifax knows America better than ninety-nine per cent of its population because he has personally visited each of the forty-eight states.

The ambassador is about to retire from public life. The war brought him and his family tragic bereavement and he has had a long term of service to the state. He has held many high offices in British Cabinets. He has been Viscount of Halifax, with Mahatma Gandhi, a man like himself, of profound moral and religious convictions, he fought understanding so that the vast peninsula's political aspirations might be met. He was Foreign Minister at the time of Munich and finally ambassador at Washington where he had to live down the odium which the Munich pact had created against him.

How successfully he followed the Lord Lothian's steps is evident from the appreciation accorded him in the United States press this week. A typical comment is—"He leaves Washington with the respect and admiration of all in the government and with the record of a hard task brilliantly performed for his own people. He has shown us that the typical Englishman is not too dissimilar from the typical American, holding the same fears, the same high hopes and basically the same loyalties to the same principles and standards."

Lord Halifax himself put the parallel even better. "We want," he said, "the same things in the end"—Ottawa Citizen.

Canada is the world's greatest producer of asbestos.

WEEKLY LETTER

Winter Wheat as a Control for Soil Drifting.

The present season provides a good opportunity for determining the effectiveness of winter wheat in controlling soil drifting in southern Alberta. There are several very good fields of winter wheat which are well worth watching. It will be interesting to learn whether they mature without damage from root-rot, and the yields obtained from them as compared with that obtained from spring wheat under similar conditions.

For many years it has been recommended that winter wheat should not be sown before September 1st, in order to escape damage from root-rot. However, the importance of getting a heavier cover on the soil as a protection against soil drifting has become more apparent in recent years, and in order to accomplish this seeding is being done in many cases about the middle of August.

A number of fields throughout the district were examined by officials of the Lethbridge Experimental Station last fall and again this spring to

determine the condition in which they went into the winter and the extent of winter killing. If any, that had taken place. The past winter was a very favourable one for winter wheat and no winter killing was noted in any of the fields examined. The amount of coverage on the different fields varied quite widely as some had been sown as early as the middle of August while others had been sown as late as the middle of October. It has been interesting this spring to observe how these different fields have withstood the unusually heavy winds which have occurred. The early sown fields which went into winter with a heavy cover, gave the soil ample protection against drifting. Neither the soil nor the crop appeared to be harmed in the least. However in the fields sown later, where the coverage was quite light, the damage from winds this spring was quite marked. In fact it was so severe in a few cases that it was questionable whether it was advisable to save the crops or destroy them and reseed to spring wheat.

The behaviour of the early sown fields will be observed with interest until maturity. If they escape root-rot damage the crops are likely to prove equally as successful as spring wheat, with the result that early seeding may appear to be advisable. It should be remembered, however, that results will depend greatly on the May and June rains and a definite opinion should not be formed on the one season's results, especially if weather conditions are very abnormal.

Some of the best early sown fields were observed on the farms of: C.A. Duncan, Lethbridge (1 mile west of the airport); Geo. Laycock, Lethbridge, about 8 miles south on the east side of the highway; O.B. Lassiter, Chin; J. Musgrave, Cowley; and W.J. Wright, Magrath.

If anything goes with you, you'll just have to take what comes.

The most notorious character of all time was "Dillinger". This has now been filmed in a splendid motion picture which shows the evils, and depicts "that crime does not pay". Coming next week.

SEEDTIME and HARVEST

By Dr. F. J. GREANEY, Director, Line Elevators Farm Service, Winnipeg, Manitoba.

Field Crop Variety Plots

This summer it is expected that variety plots will be cared for by Line Elevator grain buyers at 126 shipping points in the Prairie Provinces. Nine of these will be in Manitoba, 81 in Saskatchewan, and 36 in Alberta.

Plots and Varieties. The plots at 92 points will include 51 different varieties, all of which are officially recommended for one or more areas in Western Canada. Of these, 39 varieties are annuals such as wheat, oats, barley, flax, sunflowers, peas, etc., and 12 are biennial and perennial grasses. The latter group, of course, will be of chief interest during the second and third years. At 34 points, only annuals will be grown.

Purpose of Plots. The variety plots are demonstration plots. Since they are planted for observation only, yields are not recorded. This means that the material can be harvested for use in junior grain club work, school fairs, schools, etc. In the past, several grain buyers have, in co-operation with government officials, organized very successful field days at their plots.

An Invitation. Farmers, teachers, government officials, and others are invited to make full use of our variety plots. Visits to them are worthwhile because it is possible to see all recommended varieties, and to make many interesting comparisons. This year the plots include three new wheat varieties, namely, Redman, Rescue, and Stewart. Line Elevator grain buyers in charge are provided with information on the history and characteristics of each variety. They will welcome your interest in their plots.

New..Easy..Low Cost

ROOF PROTECTION

with IMPERIAL

ROOF PUTTY FLUX

Here's a new product from Imperial Oil Limited that saves money and serves many useful purposes around the farm! Imperial Roof Putty Flux is the ideal coating for metal or bare top felt roofs... makes them waterproof, protects against the weathering action of the sun's rays, ice and snow. Made from a high-grade asphalt base, Putty Flux is useful, too, for coating the inside of cisterns, water troughs and tanks to prevent leakage.

Easily applied with a roofer's brush, or by hand paint brush on small areas. Comes ready to use, no heating required in normal summer weather. Covers 100-150 square feet per Imperial gallon.

For those Spring "fix up" and repair jobs, ask your Imperial Oil Agent about the new Roof Putty Flux in the handy, economical 5-gallon drum.

C.P.R. Tailors Chairs for Comfort

FIT THE BODY: Scientifically recorded measurements of 3,867 persons in seated posture was the basis of these Sleepy Hollow chairs, best ever devised for comfort, which the Canadian Pacific Railway is installing in 35 new air-conditioned passenger coaches on which delivery is expected early in 1947. Built to "give" with body curves and distribute weight properly the new chair is sometimes referred to as the Hooton chair, because of research done by Dr. Earnest Hooton of Harvard University whose experts took the measurements of the better than three thousand volunteers in railway terminals of two of America's largest cities. For shoe-shedders an adjustable footrest is

provided. (Inset), it having been determined women like to ride in stocking feet as they nap. Cost of the new chairs alone will be more than \$300,000, with this figure being part of a four million-dollar appropriation, the first large passenger equipment order it has been possible to make since 1939, with double bedroom-roomette cars and express-baggage cars as well as passenger coaches included in the appropriation. The Canadian Pacific is the first railway in the Dominion to approve the new chairs and it will further pioneer in the 35 new coaches with the installation of the first electrically refrigerated water coolers on a Canadian road.

READY MONEY FOR THE GO-AHEAD FARMER...

Although you may be short of ready money, you can now pay cash for that machinery or equipment for which you have waited. Buy for cash—and save, by means of a bank loan. See your nearest BofM manager today. Ask or write for our folder "Quiz for a Go-ahead Farmer."

BANK OF MONTREAL

The never to be forgotten "Virginian" playing at the Capitol on Friday and Saturday of this week. It now comes in brilliant technicolor, and stars Joel McCrea and Brim Donnelly.

Importance of Quality

A most distinguished visitor has recently visited Winnipeg. He is one of the world's great authorities on the milling of wheat and flour, and acts as an advisor not only to many British mills, large and small, but also to the British government. This gentleman said "that in the world of wheats 'Manitobas' were considered by British millers to be as good as the Bank of England," which I suggest is saying a lot for an Englishman.

This distinguished visitor warned us, however, that even though we had by great effort won a fine reputation for our wheat, we could not afford to rest on our laurels. We could not afford to be complacent. He reminded us that milling methods were continually improving in order to make better flour, a better loaf of bread, and at a cheaper price, that other countries producing export wheat and competing with Canada were themselves working hard to improve the quality of their wheats. I leave with you, therefore, he said, this message:—"Work untiringly not only to maintain the present high quality of your Canadian wheat, but strive in every way that you can to improve your wheat, for as your quality improves so will the demands for your wheat tend to increase."

Equalization Of Education

THE NEED FOR THE EQUALIZATION of educational opportunities is frequently brought to the attention of the public and there are few who do not recognize the importance of this subject. There is no reason why children who live in the thinly populated parts of Canada should have fewer educational opportunities and advantages than those who are born in the cities. Yet it is true that for the most part there is a marked difference between the city schools and those situated in small rural communities. In critical times such as these, in which we are living today, the need for leadership in all lines of endeavour has been clearly demonstrated. Canada will continue to need leadership and the services of citizens with training and ability in the years to come. Ability is not confined to one section of the country or of the population, yet there are not now equal facilities for education throughout the country.

Finances Are An Obstacle

The question of education was discussed recently in the Canadian House of Commons, and at that time it was pointed out that in this, as in many problems which we are now facing, financial difficulties are an obstacle to any early action towards a solution. Figures showing the present expenditure for each child between the ages of five and nineteen years were given, and these revealed that the highest per capita outlay for education is in the province of Ontario, where the rate is \$46.87 each year. The lowest expenditure for this purpose is in Prince Edward Island, where the rate is \$14.29. The figures for the Western provinces showed that in Manitoba the rate is \$35.37; in Saskatchewan \$32.55; in Alberta \$39.41 and in British Columbia \$40.61. The average for the whole of Canada is calculated to be \$33.00 per child.

Present Outlay Not Sufficient

The figures were compared to the recommendations of the Canada and Newfoundland Education Association, which suggested \$67.00 per child each year as the necessary expenditure to ensure a desirable standard of education in all parts of the country. This would mean a doubling of the present amount which is being spent for this purpose. There is also need for extensive capital expenditure for buildings, equipment and teacher training. Difficulties in the way of securing funds for such an educational programme would be many, and assistance from the Dominion government would no doubt be required. There are many urgent demands on public funds at the present time, but the importance of investing in the training of the children who will bear the responsibilities of citizenship in the years to come should be neither minimized nor overlooked.

Famous Resort

Hollywood To Produce Film In Heart Of Canadian Rockies

Hollywood moves to Jasper National Park in Alberta, when Paramount sends a company and production crew totalling 180 persons to this famous resort in the heart of the Canadian Rockies—the largest National Park in the world—to film exteriors for "The Emperor Waltz," a gay production with a background of Vienna and the Tyrol.

Bing Crosby and Joan Fontaine, who will star, head the cast at the Jasper Park location.

The Jasper region was selected by the studio because of its scenic beauty and will be filmed in technicolor for the picture. Paramount's experts considered Jasper National Park the only mountain and lake area on the continent to compare with the Tyrolean Alps, which is the locale of the sequences to be filmed.

The largest fisherman among animals is the monstrous Alaskan brown or Kodiak bear. He reaches a weight of 1500 pounds.

LIFE can Begin AFTER 40, IF.

Around 40 our energy lessens. But, experience has taught us to do our work with less effort. The years ahead should yield the greatest accomplishments, the most enjoyment and happiness. They can, too, if we avoid the kidney and bladder disorders such as Backache, Headache, Rheumatic Pains, Lassitude, Loss of Sleep and Energy which so often attack those around 40. For over half a century Dr. J. C. Dodd's Kidney Pills have been helping men and women to keep kidneys and bladder in good order. If you are nearing 40, or past it, for the sake of your health and a happier future, use Dodd's Kidney Pills today!

Vocational Training

Power-Saw School Is Popular With B.C. Veterans

One of the most productive vocational training courses for veterans in B.C. is the power-saw operators school at Nanaimo, which since its creation last September has graduated 75 fully-trained men now working in logging camps throughout the province.

Sponsored by the B.C. Loggers' Association, the C.V.T.-operated school accommodates 20 veterans in each eight-week course. Only veterans with the physical build to stand up to the heavy work are accepted.

The course is divided into three parts, the first portion consisting of lectures in the maintenance and overhaul of the two-cycle gasoline engine which powers the saw, sharpening and setting of the saw itself, first aid and safety measures.

The students are then taken to the proving ground, where they learn to fell trees under instruction. The last three weeks of the course are spent in the bush, working on the job although still under supervision.

Is Good Model

Artist Found Painting Portrait Of Queen Elizabeth Quite Easy

James Gunn, whose portrait of Queen Elizabeth holds place of honor in the Royal Academy's exhibition at London, said today the Queen was an "admirable model."

She went to his studio-home about a dozen times, sitting an hour and a quarter each time.

"It is very important in painting portraits to get people to talk," he said. "When people are silent they are not like themselves. The Queen was an easy conversationalist and talked most of the time."

Price Control And Rationing Information

Q.—I do not live on a farm but have raised some livestock for my own use. May I obtain permission from the Wartime Prices and Trade Board to slaughter so that I will have my own meat?

A.—A non-farmer householder who raises some livestock for his own use may now obtain permission to slaughter a maximum of two head of livestock per year. You should send your application to the nearest Local Ration Board.

Q.—I am purchasing a business. Will I have to obtain a new Wartime Prices and Trade Board license of can I have the previous owner's license transferred?

A.—Licenses issued by the Wartime Prices and Trade Board office are not transferable. You will have to write to your nearest Prices Board office and they will give you full information about the licensing of your business.

Q.—I would like to know if an automobile is still controlled by the price ceiling regulations if it is sold at an auction sale?

A.—All motor vehicles are subject to price ceiling regulations, no matter how they are sold.

Q.—How many meat tokens may a butcher accept from a customer to cover the purchase of meat?

A.—Your butcher may accept any number of meat tokens from his customers. Use tokens in preference to coupons and thereby keep the stream of tokens moving.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

Canada's Envoys

Suggestion Is Made For Increase In Allowances

Suggestion that allowances paid Canada's diplomatic representatives abroad should be increased was advanced by Senator Thomas Vien (L-Quebec), at a meeting of the Senate external affairs committee.

Senator Vien said there was a feeling on the part of some members of Canadian missions that they were unable to meet the obligations of their position with the present allowances.

Norman Robertson, under-secretary of state for external affairs, who was before the committee as a witness, said he agreed they should be in a position to meet obligations. In some countries difficulties had been experienced in putting representatives in a position to meet rapidly increasing living costs.

Frigate birds are used to carry messages from one Pacific island to another.

CANADA-BUILT SHIPS

Inquiries For Them Received From All Over The World

Angus McGugan of Ottawa, manager of the Canadian Shipbuilding and Ship Repairing Association, said at Vancouver that inquiries had been received from all over the world for Canadian-built ships.

Mr. McGugan was in Vancouver to open the annual meeting of major Canadian steel shipbuilding yards.

Mr. McGugan, whose organization includes the 17 major ship building and repairing yards in North America, prophesied five years of full ship building activity for Canadian yards.

Recognizing that Canadian shipbuilding costs are averaging 87½ cents per man hour compared with 10 cents in Sweden, Denmark and the United Kingdom, Mr. McGugan warned that Canadian shipbuilders will have to watch overhead if they are to compete with world shipbuilding interests.

A South African trade mission will arrive in Victoria July 19 with the object of placing orders for three vessels, one 9,000-ton motorship of the passenger-freighter type; one inter-coastal steamer of 4,500 tons, and one motorship of 3,000 tons.

China, which has already purchased several coastal vessels of 3,000 tons from Canadian firms, has a full coastal program of 74 coasters to be built outside the country due to economic conditions.

Turkey also has placed inquiries for ships in Canada, and the Turkish trade commission, already in New York, is expected to visit the Dominion shortly.

PERSISTENT ROBINS

When Chicago and Northwestern engine No. 1103 left Sioux City, Iowa, recently, a partially completed bird nest was anchored to the rocker box. Back in the roundhouse after a week of steady travel in western Iowa, engineers found the nest not only completed but containing a sky-blue egg. Trainmen said the robins followed the engine daily and kept on with their work.

Should Be Considered

Little Guy In The Middle Bracket Pays And Pays

It is predicted that low incomes and excess profits may both escape taxation in the next Hsley budget. But, says E. R. Richards, in the Toronto Telegram, the poor little guy in the middle will pay and pay. It's time somebody did something for the little guy in the middle. He isn't rich enough for high expenses not to hurt and he isn't poor enough to share in the free services provided for the poor. He is too proud to beg, too honest to steal and usually has a heck of a time trying to make his income stretch over his outgo.

SMILE AWHILE

Chemistry Professor: What is the outstanding contribution chemistry has made to the world?
Student: Blondes.

"Well, did you get any surprise presents for your birthday?"
"Yes, rather. I got a book from Bill I lent you last year."

Teacher: "Johnny, what is one-fifth of three-sixteenths?"
Johnny: "I don't know, exactly, miss, but it's too small to worry about."

Daughter—"The girl who hesitates is lost."
Father—"Nonsense. She's extinct!"

New Resident: I hear that the village boasts a choral society.
Old Inhabitant: Well, we don't boast about it—we suffer it in silence.

"Did she promise to marry you?"
"Oh, yes; but I've got to wait until they move next month. Just at present there's no room for me in her father's house."

Tim: You want to keep your eyes open tomorrow.
Ted: Why?

Tim: Oh, you might bump into something if you don't.

Amalie: "Do you ever play with bad little boys, Willie?"
Willie: "Yes, Amalie."

Amalie: "Why don't you play with good little boys?"
Willie: "Their mothers won't let me."

Student: "The landlady of my last boarding house wept when I left."

New Landlady: "Oh, that's all right, I won't. I always insist on payment in advance."

"Well," said the insurance agent to the newly-wed Angus, "now that you're married I'm sure you'll want to insure your life."

"Awa' w'ye," said Angus. She's no' that dangerous.

Jerry: "Yes, I thought all the world of her."

Molly: Then why did you give her up?

Jerry: I could not support the whole world.

Green Cross 5% DDT RESIDUAL Household Spray

A sure end to flies, mosquitoes, moths in homes, camps, restaurants, etc. One spraying properly applied to walls, doors, ceilings, etc., will kill insects landing on it for weeks. In addition to DDT contains a quick knock-down agent. No staining—no unpleasant odour and safe to use.

GEMS OF THOUGHT

MARRIAGE

The happiness of married life depends upon making small sacrifices with readiness and cheerfulness. Selden.

Man and wife are equally concerned to avoid all offense of each other in the beginning of their conversation. A little thing can blast an infant blossom.—Jeremy Taylor.

Kindred tastes, motives, and aspirations are necessary to the formation of a happy and permanent companionship.—Mary Baker Eddy.

There is no disparity in marriage like unsuitability of mind and purpose.—Dickens.

Show me one couple unhappy merely on account of their limited circumstances, and I will show you ten who are wretched from other causes.—Coleridge.

Men and women, in marrying make a vow to love one another. Would it not be better for their happiness if they made a vow to please one another?—Stanislaus Leszynski.

GOING NORTH

The possibilities of the prairies and of southern British Columbia were not appreciated until the railroads opened them to travel and settlement. The Alaska Highway may be destined to play a similar role in the Northland.

DON'T just complain of itching, burning PILES! do something about it!

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any rectal itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from any druggist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for anyone to risk a painful and chronic pile condition when so fine a remedy may be had at such a small cost. Money back if you are not entirely pleased.

NOTE—The sponsor of this notice is an old, reliable firm doing business in Canada for over 20 years. Hem-Roid must help you suoooying and painful pile condition—must do it quickly, easily and pleasantly or you own test of this remarkably successful formula costs you nothing. Try it today.

OUR COMPLETE SHORT STORY— JUST ANOTHER EVENING

By EULALIE WEEKS

Copyright
Wheeler Newspaper Syndicate

"LISTEN, the more you do for people, the less thanks you get! In other words, my friend, if Connie has gotten herself into another mess and thinks little Miss Mary is going to come to the rescue, she's all wrong!"

"Don't be a nut, Mary! You'd have a good time. Connie says this chap is really keen."

"Then why isn't Connie keeping her date with him?"

"I told you! This other fellow that she says she's really in love with just got back. Bill and I will be there and the six of us could have a swell time."

"Not me. I'm tired of blind dates."

"Say, are you still carrying the torch for that soldier?"

Mary's heart always did a double-flip at the very thought of "that soldier". Nancy was referring to two years before when Mary had met Mark Hemming at a party and danced with him practically the entire evening. Was it possible to fall head-over-heels in love with a person and have that person not respond at all? She thought Mark had been sharing her and yet, when it came time to part, his leave-taking had been casual not even with mention of writing. The next day he went overseas.

"Quit your day-dreaming!" Nancy interrupted. "Be a sport, Mary, and come along tonight."

"Do you know the other men? What's Connie's beau like?"

"I have no idea. You'll come?"

Mary resigned herself to another evening.

As the girls watched the approach of three escorts, Mary's expression of unconcern changed to one of shocked incredulity! Introductions were just a blur until the words "Mark Hemming" started her heart racing madly. Automatically, Mary moved to meet Mark but she was blocked by Connie who, linking her arm in his, exclaimed,

"Let's go; Saturday night, and not a care in the world..."

So Mark Hemming was the man Connie had chosen as her own! Mary blushed at the awful blunder she had almost made and resolved to be lively and gay, regardless of how she felt. When she caught Mark staring, she was thankful she was able to smile back amiably. When the couples started to exchange dances, she managed to avoid dancing with Mark, concentrated all her attention on the chap called Jimmie. Dancing with Bill, she was amazed to see Connie and Jimmie waltzing with ill-concealed mutual pleasure. The flirt that Connie was! How could she be so heartless to Mark if she expected to win him? Nancy's suggestion that they freshen their "warpaint" came as a welcome relief to Mary and, besides, the boys were beginning to argue the pros and cons of war-time engagements or marriages. They left the table just as Mark stated firmly, "No man had a right to involve another person before he went overseas."

No, thought Mary, you might have been saddled to me if you hadn't been smart...

As the girls applied lipstick, Connie said to Mary, "You didn't want to come, eh, Mary? I must say you seem to be enjoying yourself! You're trying so hard to make a hit with Jimmie you must like him."

"Oh, he's alright."

"Well, I like that!"

"What's the difference whether I like Jimmie or not?"

"What's the difference? He just happens to be the man I intend to marry!"

Mary was stunned. "But you're with Mark!"

"Don't be silly! I paired off with Mark Hemming to make Jimmie jealous. I saw Mark only once before in my life—he's O.K., but Jim's the boy for Connie!" Mary's heart was pounding. "How did Mark happen to come?"

"Don't you remember we met him at a party a couple of years ago? He called at the office—said remembered where I worked but couldn't find any of the other girls."

"He said that?" "Mary!" Nancy was practically shrieking. "Is he your secret passion? What a coincidence!"

"What are you two talking about?" Connie demanded.

Nancy tried to explain.

Why didn't he say he wanted to find you?" Connie asked Mary. "He kept trying to say something about a brunette with blue eyes..."

Mary didn't wait to hear more from Connie, but with a glistening smile and sparkling eyes she made her way back to the table.

"I'd like to dance with you now, Mark Hemming..." This has been postponed long enough!"

In the shelter of Mark's arms, Mary felt that he knew that something wrong had been made right and that he, too, agreed there would be time for explanation later.

TRAM CRASH FATAL—Former flying instructor Harvey Dunlop Matthews, 30, of Toronto, Ont., died of burns received when a street car and truck collided at Bloor and Bathurst Sts.

Coal Output

Canadian Collieries Show An Increase In February

Canadian collieries produced 1,638,333 tons of coal in February, an increase of nine per cent. over the 1,504,759 tons mined in February, 1945, the Dominion Bureau of Statistics reports. January output of 1,816,640 tons had shown a seven per cent. gain over the like month of 1945.

February output included 1,097,191 tons of bituminous coal, 367,113 tons of sub-bituminous coal and 173,729 tons of lignite coal. Alberta produced 831,382 tons; Nova Scotia, 455,612 tons; Saskatchewan, 173,729 tons; British Columbia, 154,316 tons and New Brunswick, 23,294 tons.

Imports totalled 1,302,801 tons, compared with 775,770 in February, 1945, while exports amounted to 43,656 tons against 72,203.

Canada's Farm Lands

Some Interesting Figures Given By Agricultural Economics Official

Although Canada has a land area of 3,466,566 square miles, only about 549,660 square miles, or 16 per cent., are presently occupied as agricultural land or have agricultural potentialities in some sense. Roughly the half of that area is in farms. The other half includes large areas that can be brought under cultivation, only if Canada experiences a marked increase in population or greatly expanded export markets.

The above figures and prospects for additional settlement were given recently by Dr. J. F. Booth, of the agricultural economics division, Dominion Department of Agriculture, at the Chicago conference on farm tenure. —Kitchener Record.

GARDEN NOTES

Spread Out Sowings

Perhaps the two commonest mistakes of the average gardener, especially the one of limited experience, is planting far too much too soon and not planting enough in June and early July. During the first warm weeks of spring practically every human being has the urge to get out and dig. He rushes to the nearest seed store, gets supplies and is liable to put in a whole lot of things which should never be planted until the soil and air warm up permanently.

When this course has been followed there are usually heavy losses, losses mainly of wasted labor. Some things like peas, grass seed and a few of the other hardier flowers and vegetables don't mind quite a lot of cold and wet, but with the great majority of plants this is not the case. Many vegetables especially must be grown quickly if they are to be tender and crisp, and there is nothing to be gained by rushing the season.

This too-early planting, also, has another disadvantage. Usually all seed or space is used up too soon and even if weather is favorable the result is too many vegetables ready for the table in July, not nearly enough coming along in August and September. The experienced gardener never makes that mistake. He will always divide his seed into at least three parts, risking the first a little ahead of the regular planting time, putting in the second about the normal time and saving the last until at least two to three weeks after that. With a bit of luck this will give him a continuous supply of the very freshest vegetables right through the season.

Cultivation Important

Cultivation in June will kill weeds which might become really troublesome in July, and it will break up soil which would bake hard and be impossible to work after the sun really turns warm. If the lawn is kept regularly mown in June, at least once a week in the moist parts of Canada, then we will really have something worth taking the neighbors out to see later on. The old warning of a stitch in time saving nine really holds good for gardening too and especially so with such jobs as weeding, cultivating and thinning and, last but not least, for protective steps against disease or pests.

It is wise, say the professionals, to have some ready prepared dust or spray materials handy. These should be used at the first sign of damage. Indeed with some things like potatoes regular dusting or spraying in advance of the bugs is strongly recommended.

MAGIC BAKING POWDER

MAKES THE WHITEST, LIGHTEST

3 out of 4 Canadian housewives prefer MAGIC!

MAGIC BAKING POWDER wins more users all the time by giving better baking results. Pure, dependable Magic assures you finer texture, more lusciousness

for cakes, for biscuits, for all baked dishes. Try Magic Baking Powder today and discover why it is the baking stand-by of 3 out of 4 Canadian women.

A Great Chance

Immigrants From Europe Could Do Much With Vacant Farms

One of the most pathetic sights in Manitoba is the abandoned farm. We have many of them, monuments to something. Saskatchewan has more and there are others in Alberta. Something must be wrong somewhere on this problem. Maybe the provincial governments overlook the reason, or, like the people, do not know the why of the desolate farms, loaded with growth and weeds, empty barns and dwellings. Even Ontario supposedly a banner province, acknowledges eight thousand vacant farms. It would be a great revelation to all Canadians today if Norwegian, Belgian or Dane were permitted to enter this Dominion and to take over the vacant farms. And what they would do with them would be a better lesson in agriculture than any college could give to young workers of the soil.—Brandon Sun.

JUST IN ONE WAY

The average person takes two or three quarts of food and drink in through his mouth every day. But in the same time he takes into his lungs 10,000 to 12,000 quarts of whatever atmosphere happens to be around him.

SELECTED RECIPES

When Spring fever strikes and the appetite goes into a slump, a new dish is better than a tonic to revive it. An exciting desert containing Spring-like ingredients will perk up jaded food interest at the first mouthful. Rhubarb, lovely to look at, is a gourmet's delight when served as sauce or incorporated in one of the many desert dishes that are typical of spring. Here is rhubarb in a pudding that will be just your dish.

Rhubarb Crisp

1/2 cup butter
1/2 cup sugar
2 eggs
1/2 teaspoon nutmeg
1/2 teaspoon vanilla
1 1/2 cups small toasted bread cubes
2 cups corn flakes
4 cups diced fresh rhubarb
1/2 cup sugar

Blend butter and 1/2 cup sugar thoroughly; add eggs and beat well. Stir in nutmeg, flavoring, bread cubes and corn flakes. Place half of mixture in buttered baking dish; arrange rhubarb evenly over top and sprinkle with 1/2 cup sugar; cover with remaining creamed mixture. Bake in a moderate oven (375 deg. F.) about 35 minutes or until rhubarb is done. Yield: 8 servings (8 1/2-inch casserole).

Acquires Wealth

War Veteran Deluged By People Who Would Sell Him Stock

Bud Lloyd of St. John, N.B., the 30-year-old war veteran who inherited \$100,000, is finding his newly-acquired wealth and fame somewhat of a nuisance.

He is being deluged with phone calls and visitors trying to interest him in various schemes and projects. He revealed a mining stock salesman attempted to sell him stock by telephone from Toronto.

CUT OUT TEA AND COFFEE

Perhaps this happened to you when your doctor, or some wise friend, told you it would be a good idea to cut out tea and coffee...

DRINK POSTUM INSTEAD

But if someone says "Drink Postum instead", that really rings a bell!

Yes—Postum is a grand way to stop drinking tea and coffee if the caffeine in those beverages upsets your nerves, keeps you awake.

You can drink Postum any hour of the day or night—enjoy as much as you like, as strong as you like—and not miss a wink of sleep. Postum contains no caffeine, nor any other drug—can't affect heart or nerves or digestion.

Make Postum right in the cup, just by adding boiling water or hot milk. Costs less than 1¢ a serving.

Postum

This Week's Pattern

By ANNE ADAMS

It's all done with drawings: at waist, neckline and sleeves! Pattern 4751 has no buttons, no placket; no shoulder, armhole or waist seams! What could be simpler to sew?

Pattern 4751 comes in girls' sizes 6, 8, 10, 12, 14. Size 10 takes 2 1/2 yards 35-inch material.

Send twenty cents (20¢) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

S. J. WEAVER, Editor

HERE and THERE

LEWIS-LABOUR LORD

No labour leader today, in United States is nearly so colorful and powerful as John L. Lewis. Labor disputes are side issues when this master showman meets the operators. Since 1933 he has built the United Mine workers into the most powerful union in the world. He has become the working man's spearhead against Capitalism. He is respected and hated by both labor and operators, respected because he always keeps a contract and hated because he always gets what he wants from capital. Since the depression he has raised miners pay from \$15 per week to \$63. Today the average miner gets \$25.00 annually in United States and Lewis is asking for more.

Every time Lewis has fought the Government he has won. His Miners Union is so strong that they can paralyze industry and transportation. This power gives Lewis a whip hand in demanding "health benefits" and better safety provisions for his miners.

The health benefit is a proposed levy of 10 cents per ton on coal to provide miners with medical care and old age pensions. The operators claim that miners are already being provided for in this respect and that to soak the buyers of coal is a violation of the Government's taxing power.

John L. Lewis wants every mine to be regulated by the safety rules of United States Federal Government. The operators claim that this is a states right and would require time and enormous expense.

It was for these demands that the miners struck on April 1st. Day after day the operators and Lewis argued themselves nowhere until the public became seriously alarmed. By the time steel had dropped to 60 percent production, Chicago householders were using candles and rail lines were running 25 percent short people were in hysteria.

Lewis, always a master showman, then announced a two weeks truce to end May 25. In nervous tension the public are waiting to see what will happen. They wonder why Congress doesn't act, why President Truman hasn't taken over the mines? Where is the whole thing going to end? If the Government has given labor such broad powers why doesn't it pass laws to curb the abuse of these powers. The senate usually long on talk but slow to act have proposed checks on such unbridled power but have done nothing yet.

Be sure your aim is right before you shoot the works.

The quickest way to lose you: priorities is to lose sight of your responsibilities.

Price Justice and the Farmer

The Hon. Humphrey Mitchell, Minister of Labour, has just issued an open letter to Canadian workers which shows how well the prices of agricultural products have been held down so that workers could have

BE FIRM! Always insist on Maxwell House Coffee. It's Radiant-Roasted by a special process that captures all the extra flavor and goodness of the superb Maxwell House blend.

cheap food. Mr. Mitchell shows that the prices of butter, eggs, sugar, bread and milk today average 46.5 percent less than they were in the year 1920 after the first great war. The Minister further informs labour that prices cannot be kept under control unless wages, too are kept down.

Mr. Mitchell, however, omits one important figure in his statement which shows that wages, which govern the cost of the things farmers and others have to buy, have not been kept down; for the fact is that today, according to the official statistics of the Government, the average hourly rates of industrial labour have actually risen by 30 percent from the year 1920. So we see that while the prices of farm products which labour enjoys, are today 46.5 percent lower than they were in 1920, yet the hourly wage rates that industrial labour has received are actually 30 percent higher than in 1920. This, of course, is an injustice to our farmers, and it is no wonder that farmers and their true friends are beginning to assert that farmers are justly entitled to price increases for their wheat and other products that will bring these prices somewhere near the level of the hourly wages now enjoyed by industrial labour.

FROMM'S JEWELRY

Red Troops Cut Railway Line In Manchuria

MUKDEN.—A force of 10,000 to 20,000 Communist troops was reported to have cut the Tientsin-Mukden railroad—lifeline of National forces in Manchuria—at two points outside the Great Wall northeast of Shanghai.

The report came as semi-official Russian sources disclosed that Soviet troops have completely withdrawn from Manchuria, except for Port Arthur, where they remain under terms of the Russo-Chinese treaty.

The Communist forces, according to Nationalist sources, encircled the rail towns of Chiensuo and Kaoling, 15 and 25 miles northeast of the Great Wall, and have succeeded in cutting off rail service on the vital supply route.

Two rail bridges between Chiensuo and Kaoling were blown up, it was reported.

The Communist forces were reported pushing south toward Shanghai, just inside the Great Wall, and north toward Suichang, another rail station 31 miles northeast of Shanghai. They were reported to be well armed and equipped with artillery.

Press dispatches from Tangshan, midway between Tientsin and Shanghai, said that telephone communications with Shanghai have been cut.

PEACE CONFERENCE

Proposal Is Made For A Meeting In July

PARIS.—State Secretary Byrnes of the United States proposed formally that the four-power conference of foreign ministers adjourn until June 15 and that the 21-power peace conference be convoked July 1 or July 15.

He also asked the foreign ministers to sign a revised armistice with Italy immediately.

British and French delegations concurred immediately, but the Soviet delegation sought time to discuss the proposals, which were placed on the agenda for the second order of business after discussion of the German problem.

In a prepared statement handed to correspondents, Mr. Byrnes said that if the council could not decide at once upon a date for a peace conference in July, the matter should be placed on the mandatory list for the next foreign ministers conference.

He also demanded that a draft of a treaty for Austria be placed on the agenda for a June 15 meeting, should the adjournment proposal be accepted. An American informant said this drew immediate objection from the Soviet delegation, which has opposed Mr. Byrnes' efforts to have Austria considered at this session.

STORE WRECKED

Doukhobor Fanatics Say Operation Against Principles Of Their Religion

NELSON, B.C.—Protesting operation of a community store as against the principles of their religion, Doukhobor fanatics reportedly had taken over the co-operative store at Krestova, reduced the interior to a shambles and were staging a sitdown strike in the midst of the wreckage.

An attempt to fire the building, it was reported, was foiled by other members of the sect.

The story was told by Doukhobors who had come from Krestova. The radicals made their first move against the business May 1 and occupied the premises shortly after. Their numbers range from 12 to 20, mostly older people.

Elders of the community who recently launched a drive to encourage the members to a more co-operative attitude toward Canadian laws and customs were reported studying the situation. The store, along with a community school, was recently opened by the elders.

MAY AID SCIENCE

TOKYO.—A large metal box, marked "confidential" which was put aboard a Washington-bound plane at Atsugi airfield contained captured Japanese film showing the immediate after-effects of atomic bombs dropped on Hiroshima and Nagasaki last August. The film is expected to provide atomic experts with valuable data before the July bomb tests at Bikini Atoll.

REBUILDING DOVER

DOVER, Eng.—Residential sections of this seacoast town, focal point of German V-bomb and long-range gun attacks from the French coast, are being built up by 50 Belgian workmen, vanguard of a skilled force of 250 who have taken on the job of relieving Dover's housing shortage.

DEBT WAS PAID

LONDON.—Four years ago, Cyril Gibbons, Savoy Hotel band leader, signed a dinner bill for two airmen who had run out of leave funds. He has just received a cheque from two flight lieutenants covering the bill plus interest.

"PARIS IN THE SPRING"

—Barrow in the Manchester Union.

Heavy Problems Faced By Our Metal Industry

OTTAWA.—From a background of unprecedented wartime expansion and achievement, practically unknown to the Canadian public, a government agency here has embarked on a program which will spell success or failure for many Canadian industries in the post-war scramble for world trade.

It is the bureau of mines of the resources department, whose extensive modern laboratories and workshops are valued at approximately \$5,000,000. Its facilities are designed to duplicate and solve the complex problem faced by Canada's vast mining and metals industry.

During the war its staff was asked to solve more than 1,000 problems in aircraft manufacture, some 1,100 in vehicles, 900 in tanks, 330 in ships, 400 in ammunition, 300 in supplies and 250 in guns.

These investigations were made on behalf of the munitions department, the three services, the inspection board of the United Kingdom and Canada, the British admiralty technical mission and the British air mission as well as for individual manufacturing concerns.

Nearly every part of the army's Canadian-designed "Penguin" snowmobile, used on the Minsk expedition, was submitted for testing and approval and some 150 separate tests were conducted on tank tracks which extended the service life of a track from 500 miles in 1940 to more than 5,000 miles by the end of the war.

The bureau produced the first armor-piercing projectile with a tungsten carbide core, produced in North America, perfected methods of making aircraft control cable in Canada, conducted successful experiments which led to production of fine quality armor plate for the first time in Canada and made hundreds of investigations into production possibilities of such war-short minerals as cryolite, tungsten, aluminum, scheelite, molybdenum, chrome, magnesium and tantalite.

FOR HOME TROOPS

Pensions May Now Be Granted For Disability Or Death

OTTAWA.—Veterans Minister Mackenzie announced at a session of the commonwealth veterans' committee that the government has accepted the principle that pensions may be granted for disability or death incurred on service either at home or abroad.

Previously, the principle applied only to personnel on service outside of Canada.

The committee unanimously endorsed a motion by David Croll (L.—Toronto Spadina) that the insurance principle be restored by order-in-council rather than await the prolonged process of parliamentary approval. The sooner the legislation was passed the sooner the payments would start to the men requiring pensions.

Mr. Mackenzie said the order-in-council would be passed, but the new provision would not be retroactive as to payments. There were 14,000 cases in this category.

GIFT FROM ROYALTY

COVENTRY, Warwickshire, Eng.—The King and Queen donated £500 (\$2,225) to open an inter-denominational drive for £1,250,000 to rebuild Coventry cathedral, ruined by a German air attack Nov. 14, 1940.

CLEARING MINE FIELD

LONDON.—British minesweepers have started to clear the big mine field at the south entrance to the Irish Sea to reopen the area to overseas and coastal shipping after six wartime years.

U.S. Program To Skimp On The Use Of Bread

WASHINGTON.—The United States government announced a wheat program that will mean continued skimping on bread, meat, beer and whisky for the next 13½ months to help feed hungry people abroad.

Furthermore, the bread will continue to be "dark" and it may come in smaller loaves.

Previously the government had hoped to lift the restrictions on wheat, flour and so on this summer after the 1946 wheat crop is harvested. The announcement means the curbs will not be abolished before the summer of 1947, unless there is another change in the situation.

The way it sizes up, the program will provide considerably less wheat for food for the American dinner table during the 12 months beginning July 1, 1946, as compared with the year that began July 1, 1945. It will provide about half as much wheat for feeding to livestock—that means less meat—and none at all for brewing and distilling.

Even with the slashes in domestic consumption, Mr. Anderson figured that exports of wheat to famine areas will drop from around 400,000, 000 to 250,000,000 bushels.

TREATY PAYMENTS

Officials To Travel By Air To Visit Northern Indians

EDMONTON.—Indian affairs officials will take off from Edmonton May 27, on an aerial treaty-paying jaunt that will carry them on a visit to Canada's northern Indians, a trip that won't end until mid-July.

M. McCrimmon of the department of Indian affairs, Ottawa, recently completed arrangements for a flight, accompanied by Dr. E. L. Stone, superintendent of the Indian hospital, to visit Indians in the Peace River and Fort Vermilion areas.

Later the two will fly to the Yellowknife area and the Indians have been instructed to congregate at certain points in the north to receive their treaty payments.

WARMLY WELCOMED

Theatre Crowd In Milan Gave Toscanini Great Ovation

MILAN, Italy.—Arturo Toscanini returned to his beloved La Scala opera house after 17 years of exile and was received with a welcome accorded only Italy's greats.

His white hair shining, the 79-year-old Toscanini took bow after bow as a brilliant throng packing the 168-year-old theatre reared its approval of his performance in conducting an all-Italian program he chose for his homecoming.

HAS CHARGE OF MEYER

Warden at Dorchester Penitentiary, Col. George T. Goad is the keeper of S.S. Maj.-Gen. Kurt Meyer, top German panzer division commander now serving his life sentence at the Canadian prison. Col. Goad, seen here, is a veteran of both world wars. He served as army provost marshal.

A LUCKY ESCAPE

Vancouver Veteran Was Struck By 31,000-Volt Electric Charge

VANCOUVER.—Fred Ferand, 26-year-old veteran, lived through an electric shock which was 15 times more powerful than the current used in an electric chair.

A 34,000-volt electric charge struck him while he was repairing an aerial on the roof of his home when he threw a wire across to the roof of a nearby building where it caught on a high tension wire.

The shock hurled Ferand across the roof, ripped a shoe from his foot and started a fire in a nearby house.

He was given inhalator treatment by firemen and taken to hospital suffering from burns on his arms, side, legs and feet. His condition is reported as "fairly good".

Doctors say the fact that the aerial was grounded probably saved Ferand's life.

WILL BE DELAYED

Finance Minister Likely To Bring Down Budget In June

OTTAWA.—The budget is now not expected to be brought down in the house until mid-June, it was learned here from reliable sources.

It is understood the government will wait until Prime Minister Mackenzie King is back in the house before introducing the budget. The prime minister is expected to return to Ottawa from his trip overseas about June 12 or 15.

MANY RESCUED

LONDON.—During the European war the Air Sea rescue service saved 5,721 aircrew personnel in waters around the United Kingdom, 32,000 aircrew in overseas waters and 4,665 sailors, soldiers and civilians in areas other than the seas around Britain.

Allied Powers Adjourn Parleys For A Month

PARIS.—The foreign ministers of the four major allied powers agreed to meet again June 15.

In deciding on the month-long adjournment, the ministers also accepted a proposal by State Secretary Byrnes of the United States to attempt in the interim to work out their present disagreements.

Reported by his associates as "very discouraged" over the results of this conference, Mr. Byrnes lost in his attempt to have the foreign ministers set a definite date now for the European peace conference and to have the Austrian treaty included on the conference agenda. The American informants said Russia objected to both.

However, Foreign Minister Molotov of Russia and the others agreed to revise the terms of the Italian armistice.

(Reuters said that the German question would be discussed and the revised Italian armistice would be officially initiated by the foreign ministers prior to signature in Rome by Premier Alcide de Gasperi and by the supreme allied commander in the Mediterranean.)

Mr. Byrnes, at a conference session, proposed that American, British, Russian and French representatives begin immediately to draft terms for a German treaty to be presented to a peace conference on Germany next Nov. 12, American sources said, but no action was taken.

Mr. Molotov, Foreign Minister Bidault of France and Foreign Secretary Bevin of Britain were said to have asked time to study Mr. Byrnes proposal for a German peace conference.

Mr. Byrnes' proposal was made in a conference session devoted entirely to German problems, during which France repeated her demands for severance of the Ruhr and Rhineland and for French control of the Saar. The discussion also brought a clash between Mr. Bevin and Mr. Molotov on British occupation policies in the Ruhr.

WILL KEEP BASES

Britain Not Giving Up Pacific Islands To United States

LONDON.—Evidently, the United States is not going to get the Pacific islands bases it wants from England just now.

Informed sources in London say British foreign secretary Bevin has informed United States Secretary of State Byrnes that Great Britain will not consider cession of the bases at this time. British diplomatic and political correspondents have been told that Bevin made this quite clear to Byrnes during lengthy conversations in Paris.

The British viewpoint, as authoritatively reported, is that the United States should have full access to the island only under a regional plan for South Pacific defense. The plan would include joint participation by the United Kingdom, Australia, and New Zealand along with the United States.

The commonwealth viewpoint—as reported in London—is that this defense scheme has priority over, and is separate from, the question of sovereignty.

WASHINGTON.—Britain and the United States were reported to be making satisfactory progress toward an agreement on control of several disputed, strategically-located islands in the Pacific.

The acting secretary of state Dean Acheson, officially disclosed talks were under way between Washington and London—evidently as part of the post-war negotiations undertaken by the United States government to create a permanent chain of land, sea and air bases in the Atlantic and Pacific.

CONSERVATION PLAN

Mayor Of New York Appeals To Residents To Cut Down On Food

NEW YORK.—Mayor William O'Dwyer has appealed to New York residents to refrain from eating or serving bread, cakes, pies, pastries and other wheat and cereal products at evening meals on Tuesday, Wednesday and Thursday in each week.

The appeal in the form of a proclamation issued at city hall, was directed to restaurants, hotels and other public eating places as well as those who eat at home.

MIGHT BE ADVISABLE

PARIS.—State Secretary James F. Byrnes of the United States was reported to have instructed American authorities to Germany to propose to the Allied control council a four-power commission to visit all four zones of occupation and study the extent of German disarmament.

NARCOTICS SEIZED

WINDSOR, Ont.—Royal Canadian Mounted Police reported that a quantity of narcotics having a black market value of \$75,000 were found, abandoned on the side of a road two miles east of nearby Amherstburg.

SELLS \$100,000 CLAIM—A good companion, good cook, but no party girl is the kind of wife Urie J. "Spud" Arsenault, left, is nanking to have since he sold his Yellowknife claim for \$100,000. "Ticky" and Bill MacDonald are good friends. Spud gave Bill \$25,000 to show his esteem. Spud lives in a nice pine cabin on an island in Yellowknife bay, and Spud is acknowledged by one and all to be the neatest bachelor in the north. Once a farm boy in Prince Edward Island, he has been prospecting for 25 years. He's made eight discoveries. What he now wants to do is to "settle down to a quieter life in Edmonton," so I could keep in touch with things in the north.
